

Table of Contents

PART 1: EXECUTIVE SUMMARY	10	
PART 2: GLOBAL OFFSHORE WIND TRANSMISSION SECTOR	17	<ul style="list-style-type: none">● OSW transmission investment by 2030● OSW transmission investment in key markets
2.1 Offshore wind developments	18	
<ul style="list-style-type: none">● Overview● Key growth drivers● Cost competitiveness of offshore wind● Offshore wind's promising attributes● Targets and mandates for offshore wind● Policy and regulatory developments<ul style="list-style-type: none">- Americas- Europe- Asia Pacific		
2.2 Market size and opportunity	33	
<ul style="list-style-type: none">● Existing offshore wind capacity and export cable length● Projected offshore wind capacity and export cable length● OSW export cables - top markets by 2030		
2.3 Offshore transmission development routes	38	
<ul style="list-style-type: none">● Offshore wind transmission development routes● TSO-owned offshore transmission development<ul style="list-style-type: none">Generator-owned links● Generator-owned offshore links● Offshore transmission operator (OFTO) model● Competitive solicitation of offshore wind transmission● Independent/merchant offshore wind transmission<ul style="list-style-type: none">- Comparison of key features of these models- Offshore transmission components - who builds what?		
2.4 Offshore wind transmission costs and investments	51	
<ul style="list-style-type: none">● Offshore wind project - transmission capex● Cost breakdown for fixed and floating projects● Key factors affecting OSW transmission capex● Cost trends - cables and transformers		
2.5 Financing offshore wind	58	
<ul style="list-style-type: none">● Conventional financing options and investor interest● Contractual structure of an OSW project● Emerging financing options● Key issues and challenges		
2.6 Offshore wind transmission technology	65	
<ul style="list-style-type: none">● Offshore transmission solutions● Subsea cables● Offshore substations● Structures and foundations● Construction, installation and monitoring solutions● Transmission for floating offshore wind		
2.7 Regional offshore initiatives	79	
<ul style="list-style-type: none">● North Sea Wind Power Hub (NSWPH)● Danish Energy Hub<ul style="list-style-type: none">- Artificial Island (North Sea)- Bornholm Island (Baltic Sea)● Baltic Offshore Grid Initiative MoU● Baltic Offshore Grid (BOG 2050)● Offshore grid potential in the Mediterranean region● Eurobar● EU PROMOTioN project		
2.8 Key technology players	93	
<ul style="list-style-type: none">● Offshore cables● Offshore transformers/substations● Offshore structures● Other key players		

Table of Contents

2.9	Offshore wind projects	116	3.3.5	Philippines	427
	● USA		3.3.6	South Korea	434
	● Rest of Americas		3.3.7	Taiwan	449
	● Asia Pacific		3.3.8	Vietnam	462
	● Europe				
	PART 2: COUNTRY PROFILES	147	3.4	Others	475
3.1	USA	148	3.4.1	Brazil	476
3.2	Europe	186	3.4.2	Canada	481
3.2.1	Belgium	187	Each country profile file includes:		
3.2.2	Denmark	201	-	Industry structure	
3.2.3	Estonia	217	-	Recent policy and regulatory developments	
3.2.4	Finland	222	-	Existing offshore wind generation and transmission capacity	
3.2.5	France	231	-	Planned or proposed offshore wind generation and transmission capacity	
3.2.6	Germany	242	-	Existing OWT projects (developer, capacity, technology, investment and key contractors)	
3.2.7	Greece	259	-	Upcoming and planned OWT projects (developer, capacity, technology, expected investment and key contractors)	
3.2.8	Ireland	267			
3.2.9	Latvia	278			
3.2.10	Lithuania	283			
3.2.11	Netherlands	288	PART 4: APPENDIX		486
3.2.12	Norway	301	4.1	Sources and methodology	487
3.2.13	Poland	312	4.2	Global and regional industry associations	488
3.2.14	Portugal	320	4.3	List of abbreviations	489
3.2.15	Spain	328			
3.2.16	Sweden	336			
3.2.17	The United Kingdom	350			
3.2.18	Others (Italy, Turkey)	374			
3.3	Asia Pacific	377			
3.3.1	Australia	378			
3.3.2	China	385			
3.3.3	India	403			
3.3.4	Japan	411
