<b>Section 1: Executive Summary</b>	<b>10</b>	<b>Section 8: Key Players - Charging Infrastructure Providers</b>	<b>73</b>
<b>Section 2: Global EV Market and Charging Infrastructure</b>	<b>17</b>	<b>Section 9: Country Profiles</b>	<b>107</b>
2.1 Overview of the global EV market	18	9.1 Americas	108
2.2 E-mobility value chain	19	9.1.1 Brazil	109
2.3 Contractual relations in EV charging	20	9.1.2 Mexico	119
2.4 Cost structure and key business models for public charging	21	9.1.3 Canada	129
2.5 Recent developments	22	9.1.4 USA	142
<b>Section 3: Growth in the EV Market and Charging Infrastructure</b>	<b>30</b>	9.2 Europe	166
3.1 Growth in the EV market	32	9.2.1 Austria	167
3.1.1 Growth in the global EV market	33	9.2.2 Belgium	184
3.1.2 Growth in the global EV market by type of EV	35	9.2.3 Denmark	201
3.1.3 Growth in the North American EV market	36	9.2.4 France	215
3.1.4 Growth in North America by type of EV	37	9.2.5 Germany	232
3.1.5 Growth in the Asia Pacific EV market	38	9.2.6 Italy	248
3.1.6 Growth in Asia Pacific by type of EV	39	9.2.7 The Netherlands	262
3.1.7 Growth in the European EV market	40	9.2.8 Norway	278
3.1.8 Growth in Europe by type of EV	41	9.2.9 Poland	291
3.2 Growth in the public EV charging infrastructure sector	42	9.2.10 Portugal	304
3.2.1 Growth in the global public charging infrastructure sector	43	9.2.11 Spain	320
3.2.2 Growth in the global public charging infrastructure by type	45	9.2.12 Sweden	338
3.2.3 Growth in the public charging infrastructure in North America	46	9.2.13 Switzerland	353
3.2.4 Growth in the public charging infrastructure in North America by type	47	9.2.14 The United Kingdom	366
3.2.5 Growth in the public charging infrastructure in Asia Pacific	48	9.3 Asia	384
3.2.6 Growth in the public charging infrastructure in Asia Pacific by type	49	9.3.1 Australia	385
3.2.7 Growth in the public charging infrastructure in Europe	50	9.3.2 China	399
3.2.8 Growth in the public charging infrastructure in Europe by type	51	9.3.3 India	414
<b>Section 4: Expected Growth in the EV Market and Charging Infrastructure</b>	<b>52</b>	9.3.4 Indonesia	425
4.1 Expected global growth in EVs and charging infrastructure	53	9.3.5 Japan	435
4.2 Expected growth in North America	54	9.3.6 Malaysia	449
4.3 Expected growth in Asia Pacific	55	9.3.7 The Philippines	459
4.4 Expected growth in Europe	56	9.3.8 Singapore	469
<b>Section 5: Expected Trends in EV Market and Charging Infrastructure Sector</b>	<b>57</b>	9.3.9 South Korea	481
5.1 Expected trends in EV sales	58	9.3.10 Thailand	493
5.2 Expected trends in EV charging infrastructure	60	9.4 Middle East & Africa	503
5.3 Impact of COVID-19	63	9.4.1 United Arab of Emirates (UAE)	504
<b>Section 6: Policy and Regulatory Developments by Region</b>	<b>64</b>	9.4.2 South Africa	515
6.1 North America	65	<b>Section 10: Appendix</b>	<b>528</b>
6.2 Latin America	66	10.1 Sources and methodology	529
6.3 Europe	67	10.2 Definitions of key terms	530
6.4 Asia Pacific	68	10.3 EV charging infrastructure by output and rating	531
<b>Section 7: Utility Tariffs and EV Charging Prices</b>	<b>69</b>	10.4 EV charging infrastructure by charging speed	532
7.1 Overview	70	10.5 EV charger characteristics	533
7.2 Utility tariffs across regions	71	10.6 Utility tariffs	535
7.3 Pricing models for EV drivers	72	10.7 Number of EVs per charging point in key markets	536
		10.8 Growth in EVs and charging infrastructure by region and by country	538
		10.9 Expected growth in EVs and charging infrastructure by 2030	552
		10.10 List of abbreviations	556
