

CROSS-BORDER AND INTERCONNECTOR PROJECTS DATABASE AND REPORT 2019

Global Transmission Research has just launched the **Cross-border and Interconnector Projects Database and Report 2019**.

In this report, we will track around 350+ cross-border and regional interconnector projects across six regions - North America, Latin America, Asia, Europe, Africa and the Middle East.

The cross-border projects tracked will be high voltage links being set up between two countries while the regional interconnectors will be projects being set up to connect regional/isolated grids within a country.

The projects have been classified as either under construction, or under contractor selection, or under development, or announced/proposed, or on hold. The package will comprise a PDF report and an excel database. The PDF report will provide an introduction to the database and an analysis of the projects in the database, in terms of region, voltage level, technology, type of line and status.

The excel database will provide a detailed and up-to-date information on each project, including a description, developers, route, rated voltage (kV), technology (AC or DC), length (km), estimated cost, current status, contractors, scheduled completion, and contact details. There is a separate excel workbook for each of the six regions.

The package (PDF and excel) is priced at USD2,400 and will be released in the last week of October.

There are also special "early bird" discounts – the price is USD1,920 (20 per cent discount) for orders and payments received on or before September 27, 2019 and USD2,160 (10 per cent discount) for orders and payments received on or before October 25, 2019.

Table of Contents (Draft)

PART 1 CROSS-BORDER AND INTERCONNECTOR PROJECTS

ANALYSIS REPORT (PDF)

1. **Introduction to the database**
2. **Executive summary**
3. **Methodology and key assumptions**
4. **Analysis of projects in the database**
 - 4.1 Overview
 - 4.2 Projects by region
 - 4.3 Projects by voltage and technology
 - 4.4 Projects by type
 - 4.5 Projects by status

4. Europe

- 4.1. Cross-border projects in Europe
- 4.2. Interconnector projects in Europe

5. Middle East

- 5.1. Cross-border projects in Middle East
- 5.2. Interconnector projects in Middle East

6. Africa

- 6.1. Cross-border projects in Africa
- 6.2. Interconnector projects in Africa

PART 2 CROSS-BORDER AND INTERCONNECTOR PROJECT

PROFILES (EXCEL DATABASE)

Each profile includes a description, developers, route, rated voltage (kV), technology (AC or DC), length (km), estimated cost, current status, contractors, scheduled completion, and contact details

1. North America

- 1.1. Cross-border projects in North America
- 1.2. Interconnector projects in North America

2. Latin America

- 2.1. Cross-border projects in Latin America
- 2.2. Interconnector projects in Latin America

3. Asia Pacific

- 3.1. Cross-border projects in Asia Pacific
- 3.2. Interconnector projects in Asia Pacific

Sources and Methodology

Global Transmission Research's industry analysts have utilised various primary and secondary research sources in preparing the database and the report. Primary sources include information obtained through questionnaires sent to various utilities, transmission companies, transmission system operators and industry regulators. Extensive secondary research has also been conducted by our analysts and research associates. These secondary sources include, but are not limited to: websites of utilities; annual reports and financial reports of utilities; investor presentations; analyst reports; government documents, plans and statistical databases; websites of relevant ministries and regulators; websites of relevant industry associations; internal and external proprietary databases; news articles; and press reports. Wherever applicable, all research sources are appropriately cited within the report. These primary and secondary research sources, combined with our industry expertise, have been synthesised to prepare this report.

The data on line lengths, voltage, etc. are actual figures obtained from primary and secondary sources. In a few cases, where this data was not available, we have made reasonable assumptions. For example, in cases where the exact line length of a project was not available, we have used the approximate distance between the start and the end points of the project.

Global Transmission Research takes every possible care to provide information using resources it believes are most accurate and reliable. It, however, shall not be liable for any losses or consequences, if any, arising from the use of the information contained in the document.

About the Publishers

Global Transmission Research is a leading provider of information and analysis on the global electricity transmission industry. We publish newsletters and reports. We also organise conferences on key issues and topical themes relevant to the transmission industry.

We publish the **Global Transmission Report** (a monthly newsletter) and **Global Transmission Weekly** (a weekly newsletter). We also operate the website www.globaltransmission.info. In addition, we have published several industry-focused research studies. Please visit our website to learn more about these products.

Our Clients

Our clients include leading organisations across the world such as **3M, ABB, ABEINSA, Alberta Electric System Operator, Alstom, AltaLink, AMEC, Atkins Global, Balfour Beatty, Barclays Capital, Bechtel, BHP Billiton, BKW FMB Energie AG, Boston Consulting Group, Brookfield Renewable Power, Cardiff University, CFE Comision Federal Electricidad, CH2M HILL, Cooper Power Systems, CTEEP, EDF, EFACEC, EirGrid, El Sewedy Cables, Elecnor, Elia, Enel Trade Spa, Energinet.dk, ESB International, Eskom, EU GIG OÜ, European Commission, European Investment Bank, G&W Electric, GDF SUEZ, GE Energy, Hatch, HELLENIC CABLES, Hubbell Power Systems, Hydrogenics, Hyosung, Hythro Power, ILJIN Electric, International Energy Agency, Israel Electric, Kalpataru Power Transmission, KEC International, KEMA, Koncar, MAVIR, Maxwell Technologies, MidAmerican Energy Holdings Company, Mott MacDonald, MWB Shanghai, National Contracting Company, Nexans, Nexant, OTN Systems NV, Parker Hannifin, Pfisterer International, PJM Interconnection, Power Grid Corporation of India Limited, Pöyry, PPC Insulators, Preformed Line Products, Red Eléctrica de España, Reliance Energy, RTE, SAE towers, SaskPower, SCLE SFE, Siemens, Skadden, Arps, Slate, Meagher & Flom LLP, SNC-Lavalin, Southwire, State Grid International Development, Statnett, Swissgrid, TE Connectivity, Terna, The World Bank, Thomas & Betts, Toshiba, Tractebel Engineering, TradeWind Energy, Vattenfall, Volta River Authority, Xcel Energy, etc.**

Order Form

Report	Price on or before September 27, 2019	Price on or before October 25, 2019	Price after October 25, 2019
Cross-border and Interconnector Projects Database and Report 2019	USD1,920	USD2,160	USD2,400

Payment Options

1. Credit card:

a) **Visa/MasterCard:** To make payments with Visa/MasterCard, please visit http://www.globaltransmission.info/report_shopping_cart.php

b) **American Express:** To make payments with American Express card, please visit http://www.globaltransmission.info/amex_authorisation_form.doc
Please download the AmEx authorisation form from the above link and email the completed form to report@globaltransmission.info

All credit card payments will be subject to standard credit card charges.

2. Wire transfer:

Beneficiary : India Infrastructure Publishing Private Limited
Bank Name : The Hongkong and Shanghai Banking Corporation Ltd.
Bank Address : R-47, Greater Kailash-1, New Delhi-110048, India
Account No. : 094179587002
Swift Code : HSBCINBB

Global Transmission Research is a division of India Infrastructure Publishing Private Limited.

Terms and conditions:

Full payment must be received prior to the purchase. The exchange rate prevailing at the time of purchase will be applicable.
